DETAILED ACTION

*** This office action is in response to Applicant's Pre-Amendment filed on January 26, 01.

Claims 1-37 were canceled. Claims 38-80 are currently pending.

** Claim 51 is incomplete and indefinite as depending on canceled claim 37.

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

I. Claims 52-60,51, drawn to a method of making a capacitor including forming a layer of hemispherical grain polysilicon, classified in Class 438, subclass 398.

II. Claims 61-63, drawn to a method including forming an interconnect recessed in the substrate assembly, classified in Class 438, subclass 241.

III. Claims 64-66,44, drawn to a method including forming a first electrode having a non-smooth surface, classified in Class 438, subclass 665.

IV. Claims 67-68, drawn to a method including forming a first electrode on the substrate assembly, classified in Class 438, subclass 396.

V. Claims 69-75, 50, drawn to a method including forming a first substrate layer, forming a second substrate layer on the second electrode including a strap, classified in Class 438, subclass 238.

VI. Claims 76-80, drawn to a method including a first device including a capacitor, a second device and a connecting bus, classified in Class 438, subclass 239.

Currently, claim 38 is generic claim. Claims 39-43,45-49 will be considered with either elected group. Because each of the Group I to Group VI invention are species, distinct, combination or sub-combination each from the others for the reasons given above and have acquired a separate status as shown by the above different classifications and as given in the above examples, the fields of search are not co-extensive and separate examination would be required, restriction for examination purposes as indicated is proper. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims

subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Trinh whose telephone number is (703) 308-2554. The examiner can normally be reached on Monday through Friday, from 9:00 Am to 5:00 Pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Whitehead Jr Carl, can be reached on (703) 308-4940. The fax phone number for this Group is (703) 305-3432 or (703) 308-7382.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0956.
